Gameplay

Once you're in the game you will be in control of the gameboard. You may not control the balls directly. The goal of the game is to get all three balls into the green finish holes at the end of the game board. In order to do so, you must tilt the board making the balls move through the maze. If you accidentally drop one of the balls into the red pitfalls, that ball will immediately be sent back to the start. Try not to lose your progress, the game is timed!

Fun multiplayer option!

Get your friends together and try to see who can get the best score. The person with the shortest time wins!

Gamepad users:

Tilt the gameboard using either joystick.

Mac/PC Users:

Tilt the gameboard using the **WASD** keys or up, down, left, right.

Good luck!
